

Kidz Bites Lyrics

WATER

Verse 1:

You Sir need something special to drink
To fill up your internal sink
To keep you functioning your best
You've got to put water to the test!

Verse 2:

Your own body's made of mostly this
Amazing water we cannot dis
Because it's good for so many things
Always think of water, the drink of Kings!

Bridge:

If your head hurts or you're feeling tired
Some water could just turn the tide
If you're hungry lots or your skin has spots
It's time to give more water a shot!
Clean water can help you think
It might help you find that missing link

Verse 3:

Water is what helps make life
It can get you out of all sorts of strife
So next time sir, perhaps you should say
How much water have I had today?
