

Kidz Bites Lyrics

NATURE IN SEASON

Chorus:

Nature in season
We love our fresh food
Nature in season
You know variety is good
Nature in season
We gotta know it well
'Cause when nature's in season
Her food can make us feel swell

Verse 1:

Oh we love to eat our summer fruits
When the sun is piping hot
Then the leaves fall down from the trees
And autumn apples have their shot
Winter warming veggies
Are a welcome comfort too
And when spring has sprung
Those leafy greens are growing just for you

Chorus:

Nature in season
We love our fresh food
Nature in season
You know variety is good
Nature in season
We gotta know it well
'Cause when nature's in season
Her food can make us feel swell

Bridge:

Oh nature has a rhythm
Our farmers know it well
There's a cycle and there's seasons
On this clever earth we dwell
And if we let nature guide us
How much better we will see
Better taste, better value
Better for earth and better for me

Chorus:

Nature in season
We love our fresh food
Nature in season
You know variety is good
Nature in season
We gotta know it well
'Cause when nature's in season
Her food can make us feel swell
'Cause when nature's in season
Her food can make us feel swell
